AWS AppSync

- 250,000 query operations (free tier)
- 250,000 real-time updates (free tier)
- Serverless, function-less, integrations
- Integrates with Cognito
- Both HTTP and WebSocket endpoints

```graphql
schema.graphql

type Query {
  listRecipes: [Recipe]! @aws_cognito_user_pools
}

type Mutation {
  createRecipe(input:RecipeInput!): Recipe @aws_cognito_user_pools
}

type Recipe {
  id: ID!
  coverImage: String!
  title: String!
  description: String!
  servings: Int!
  owner: String!
  ingredientsText: String!
  stepsText: String!
}
```
